What's New

NEW: SP510 Low Mod Construction Sealant

The latest offering from tremco illbruck to the construction industry is illbruck's SP510 low mod construction sealant, perfect for use in window and door perimeter joints. Manufactured in the state-of-the-art factory in Germany, the solvent-free formulation is a sealants applicator's dream. It's easy to tool, has low emissions and can be used with a foil gun. As well as traditional cartridges, illbruck's SP510 is also offered in both 400ml and 600ml foils, giving applicators a more environmentally friendly solution to the job. Over-all, illbruck SP510 is a user friendly, cost effective and fully certified for creating joint details that will remain flexible and highly durable. Find out more here.

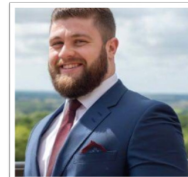

We've Expanded Our Team

Investment in innovation is only part of the puzzle, our team is another. In the recent months, illbruck has gained a new team member. Mark Murray who will be supporting the modular building team. We welcome him to the team and wish them great success.

Team Spotlight

Name: Mark Murray

Title: Area Sales Manager

Division: Illbruck (Modular)

Interests: Rugby, Gym and Gaming

Why Mark likes modular: the modular division within illbruck allows us to understand the versatility of our products, for example TP600 can be used in a variety of ways other than sealing windows.

FA880 Premium Natural Stone Silicone Matt

[FA880](#) is a one component, low slump silicone completely free of any ingredients likely to cause migratory staining to natural stone. It is neutral curing for safe sealing of stonework and has a Matt finish.

Product Benefits:

- Good resistance to UV light, ageing and weathering
- Compatible with most construction materials
- Rapid curing - skins within 10-20 minutes
- Suitable for sanitary & swimming pool surround applications.

Recent Product Launches

- SP510 - Low Mod Construction Sealant
- PU700 - Multi-purpose construction adhesive
- FF197 - Fire Rated PU Foam

- [FIT Show 2019](#) | 21st - 23rd May | Stand H31

NEW: FF197 Fire-Rated PU Foam

FF197 is a fire-rated moisture curing foam suitable for use in gaps up to 35mm (2 hour fire integrity), around services or bonding door and window frames. It has excellent adhesion to most building materials.

Designed to be used to fire stop small gaps and service penetrations (in conjunction with Nullifire FS702 or FS703) and in masonry walls and floors, and to bond and seal around fire doors frames and windows.

FF197 requires no architrave and can be used with standard packers. FF197 is tested to BS EN 1366-4, BS EN 1634-1 and meets BS476-20 & 22. It is also FD60 approved under BS EN 1634-1.

Doing Our Bit

Here at illbruck we have decided to give a little back. The team based in Coventry have recently undertaken two charity events in order to raise some funds for local charity Zoe's Place Baby Hospice. The charity provides around the clock care, every day, for babies and infants with life-limiting and life-threatening illnesses. We will continue doing our bit for this outstanding charity and keep you in the loop about any more events that we host.
