Bonding & Sealing

Product Range
illbruck adds perfection... to all your sealing and bonding projects. Whether it be windows, façades, interiors or exteriors, a major construction scheme or a minor refurbishment job - we offer the right set of products, services and expertise to lessen your workload and improve the overall climate of buildings. Making it perfect.

illbruck products ensure sustainable, top quality solutions. They meet all relevant government requirements, help to lower energy consumption and contribute to a healthy living environment. The products are regularly checked by independent materials testing institutes for performance, durability, safety and adherence to low emission standards. This has resulted in numerous seals of approval for the different products as well as for the company.

illbruck is a brand of tremco illbruck, a European manufacturer and service provider of high performance building materials.
illbruck has expanded its product range. From now on, you can find everything you need for sealing and bonding windows, façades, interiors and exteriors – all under one name: illbruck.

Colour-coding makes it easier to find the product you need: Each application field has its own colour scheme and each technology its own shade of colour within this scheme. The colour code is always the same: in this catalogue, on the product or in all promotional materials! As before, the technologies continue to be identified by a combination of letters (as part of the shortcut).
Service and Support
Quick assistance when you need it

Targeted services provide answers to all your questions - quickly, simply and for every phase of your project. Use the following overview to find the right service point for your queries.

Website
The illbruck website has been restructured for faster access to all products. Moreover, it offers support in product selection, a continually growing range of best practice studies, and access to both digital and personal service.

Literature
Clearly presented literature and product datasheets provide all the technical information you need for each specific product. These are available in printed format or can be downloaded from our website.

Specification Services
The illbruck team can assist with specification writing including NBS Clauses. As members of NBS Plus, architects can easily incorporate illbruck products into their specifications with NBS Writer.

Training
illbruck Assured training prepares you for the regular workday. Learn how to apply illbruck products professionally and efficiently. Discover new technologies and solutions. Benefit from the knowledge of our experts. Our product consultants can give you dates of our training courses and CPDs.

Consulting & Planning
When faced with complicated projects, you can turn to a team of experts for independent and detailed specification support.

Customer Service & Support
Calling our Customer Services department will put you in direct contact with experienced experts. Since we strongly believe in personal communication, we invest in our face-to-face services in order to better serve your needs.

Europe-Wide Manufacturing
tremco illbruck are experts in sealing, bonding and coating – for construction and industrial applications. Our 29 locations and 9 production facilities means we’re never far from our customers.
Building Protection Range

tremco illbruck is well-known for its site support and service levels. Through our on-going on-site ‘toolbox talks’ to customers and site visit reports, along with adhesion and chemical compatibility testing – it is clear that incompatibility between products from multiple sources can be a problem. The illbruck Building Protection Range solves the problem. A range of products that are fully compatible with one another from inside to outside (see page 18 for full compatibility table). The inter-compatibility stretches from the adhesives bonding to the membranes and tapes, membranes bonding to membranes and also includes adhesion to common construction materials. illbruck products are endorsed by many market leading material suppliers.

Common problems we solve:
• Window membrane to breather membrane compatibility
• Window membrane to vapour barrier compatibility
• Vapour barrier tape to window membrane
• Breather membrane tape to window membrane
• Vapour barrier to floor, ceiling and walls
• Bonding to sheathing board tapes
• Tape compatibility to sheathing board, vapour barrier and breather membrane
• Adhesive to adhesive compatibility
• Bonding to damp sheathing board

Complete Protection for the Building
As building regulations change, new solutions and practices are required. The problem of uncontrolled air leakage from buildings has grown in recognition with the amendments to Part L in 2006, 2010 and 2013, requiring energy reduction targets to be addressed and the incorporation of mandatory air leakage testing.

Highly energy efficient windows are now invariably specified and to maximise this investment, tremco illbruck offer a range of products to ensure that the benefits arising from such selection are complemented by a high quality installation. The illbruck i3 system enables performance to the highest standard and will restrict air leakage to below 1 m³/hr.m² @ 50 Pa, ensuring compliance with Passive House standards.

illbruck offer a complete range of intelligent membranes and impregnated tapes to provide high performance window and façade installations.

By selecting the appropriate products, a simple, cost effective installation will benefit the building owner / occupier for years to come and the long-term savings can be enjoyed by all.

**Impregnated Foam Tapes**
- Brand Leader - the original and proven to be the best performing tapes in the market
- Premium weather sealing
- 25+ years life expectancy
- 20+ years real life testing
- Guaranteed UV stability
- Wide range of sizes for joint widths of 2 to 50 mm

**Intelligent Membranes**
- 600 Pa weather and airtightness
- Variable vapour permeability
- Multiple installation methods to suit design and application requirements

**EPDM & Butyl Membranes**
- Water tight
- Airtight
- Suitable for permanent exposure

Pressure Sensitive Foam Tapes
A Range of Double and Single Sided, Self-Adhesive Foam Tapes

illbruck Pressure Sensitive Foam Tapes are manufactured in Colchester - one of the tremco illbruck manufacturing centres of excellence. The factory specialises in the manufacturing of a wide variety of single and double sided foam tapes utilising pressure sensitive adhesives.

These tapes are used in many industries: automotive manufacture, construction, engineering and a wide variety of specialist applications. Our manufacturing site has a large range of conversion facilities to manufacture every type of adhesive format including rolls, spools, die cuts, and sheets. We are a customer focussed business able to offer off the shelf products in a timely fashion and also tailor made products to meet customer’s requirements in more exacting or specific applications.

Pressure Sensitive Adhesive Tapes
• High bond strength
• Innovative products
• Wide range of applications
• Standard and bespoke sizes

PU Foams

- High movement accommodation
- Excellent thermal insulation
- Acoustic attenuation up to 60 dB
- 2-in-1 application: Use with gun or AA210 nozzle

FM365 is a rapid curing, high yield, one component gun grade expanding polyurethane foam that is suitable for general gap filling, bonding and insulation applications. These include the perimeter sealing and fixing of windows and doors, sealing of service penetrations and sealing around insulation panels.

**Product Benefits**
- Ideal for filling, sealing and insulating of joints and gaps
- High yield application (when used with conical adaptor or straw)
- Rapid cure formulation
- Forms a strong bond to most common building materials

**Packaging**
- 540 ml pressurised canister (12/carton)

**Colour**
- Green

Want more information? visit our website
www.illbruck.com
**FM310**
Pro Foam

FM310 is suitable for general gap filling, bonding and insulation applications. These include the perimeter sealing and fixing of windows and doors, sealing of service penetrations and sealing around insulation panels.

**Product Benefits**
- Acoustic & thermal insulation
- High initial expansion
- Low wastage

**Packaging**
750 ml pressurised canister (12/carton)

**Colour**
Green

---

**FM330**
Pro Foam
Air Seal

FM330 is a rapid curing, highly elastic gun grade polyurethane foam and is ideal for use as an air tight gap filler for general construction joints.

**Product Benefits**
- Acoustic & thermal insulation
- High initial expansion
- Low wastage

**Packaging**
750 ml pressurised canister (12/carton)

**Colour**
White

---

**FF197**
Nullifire
Fire-Rated PU Construction Foam

FF197 is a modified, single component, fire rated polyurethane foam that is used to seal linear gaps throughout the fire rated areas of a building.

**Product Benefits**
- Tested to BS EN 1366-4, BS EN 1634-1 and meets BS476-20 & 22. Also tested to: BS EN 1634:3 Fire resistance and smoke control tests
- 2-in-1 gun & nozzle canister

**FIRE DOOR INSTALLATION**
- FD60 approved under BS EN 1634-1 and also tested to BS EN 1634:3

**Packaging**
750 ml pressurised canister (12 per box)

**Colour**
Pink

Adhesives

• Proven performance
• Cost effective
• User friendly

PU012
Liquid PU Construction Adhesive

PU012 is a moisture cure, liquid PU adhesive that is designed for the bonding of most types of wood, sandwich panels, polyurethane panels and plywood.

Product Benefits
• Interior & exterior use - EN 204 D4
• Bonds most materials even damp substrates
• Initial set in 20 minutes

Packaging
750 g bottle (12/carton)

Colour
Amber

PU220
Wood Adhesive Rapid Set

PU220 is a low viscosity PU adhesive designed for bonding wood to wood very rapidly, suitable for full water immersion, even in seawater.

Product Benefits
• Interior & exterior use - EN 204 D4
• Bonds most materials even damp substrates
• Gap filling action
• Fast Cure - initial set in 6 -7 minutes

Packaging
500 ml (12/carton)

Colour
Amber
PU700 Multi-Use Construction Adhesive is all you need in one can! With an astonishing yield equal to 12 x 310 ml cartridges, PU700 massively saves on installation time and also reduces waste significantly.

From being a high performance wood and joinery adhesive to a great alternative to mortar, PU700 covers a multitude of applications.

PU700 is also incredibly strong - don’t just take our word for it though, try illbruck PU700 ‘The Van Essential’ today!

**Product Benefits**
- Incredibly strong adhesive
- Wide variety of applications - wood, bricks, steel & more!
- Rapid curing - handling of joint within 10 minutes
- 12 times more coverage than a 310 ml cartridge
- Saves installation time
- Reduces waste
- No specialist tools required
- Less mess
- Excellent chemical resistance
- Suitable for indoor or outdoor use

**Packaging**
750 ml (12/carton)

**Colour**
Beige

Want more information? visit our website www.illbruck.com
**PU230**

Wood Adhesive
Rapid Set

PU230 is a thixotropic PU adhesive paste which cures rapidly to form an exceptionally strong water resistant bond.

**Product Benefits**
- Interior & exterior use - EN 204 D4
- Bonds most materials even damp substrates
- Bonds irregular or uneven substrates
- Fast cure - initial set in 6 -7 minutes

**Packaging**
310 ml cartridge (12/carton)

**Colour**
Translucent

---

**PU010**

Panel Adhesive

PU010 is a rapid curing gun grade polyurethane foam adhesive. Designed for panel fixing, PU010 is compatible with many common substrates such as: plasterboard, insulation, masonry, timber, concrete and metal.

**Product Benefits**
- Quick & easy alternative to mechanical fixings and mortars
- Ready to use - no mixing required
- Eliminates waste - use what you need

**Packaging**
750 ml pressurised canister (12/carton)

**Colour**
Green

---

**PU038**

Corner Cleat Adhesive

PU038 is a solvent free, two component, polyurethane based adhesive that is mainly used for the structural bonding of corner angles of aluminium windows and doors. Bonded parts can be powder coated afterwards.

**Product Benefits**
- Solvent free
- Thixotropic - will not drip
- Good weather resistance
- Easy to apply

**Packaging**
PU038 is available in 900 g kits (6 kits per carton).

**Colour**
Resin: white-beige
Hardener: brown-beige
Cured film: beige
MT480 has been developed to provide a water-based alternative to conventional grab adhesives. It offers the same gap filling and bonding performance, but without the issues surrounding solvent-based adhesives.

**Product Benefits**
- Fixes, fills, seals and bonds
- High-power grab action
- Solvent-free and very low odour

**Packaging**
380 ml cartridge (12/carton)

**Colour**
White

SP510 is an excellent MS Polymer adhesive with good grab properties. Being a low modulus sealant & adhesive, it is low slump even in warmer temperatures. It has excellent application properties. It cures with air humidity, to form a tack-free surface and provides good resistance to light, ageing and weathering. SP510 is also suitable for long term elastic sealing of window and door perimeter joints and movement joints between construction components. On top of that, it can be used for indoor* and outdoor applications, and is compatible with metals and most construction materials. A great all-rounder!

*excluding bathrooms/sanitary areas

**Product Benefits**
- Excellent adhesive
- Good grab properties
- Easy to tool
- Free from isocyanates, silicone & solvents
- Low slump
- Can be painted over

**Packaging**
310 ml cartridge (12 per carton), 400 ml sausage (20 per carton), 600 ml sausage (20 per carton)

**Colours**
White, brown, ivory, anthracite, black and grey.
SP350 is a single component polymer adhesive based on illbruck’s advanced SP polymer formulation. With an extremely high initial strength, SP350 is ideal for bonding materials to floors, walls and ceilings.

**Product Benefits**
- Instant grab
- Bonds & seals virtually anything
- Interior & exterior use - over paintable
- Solvent & isocyanate free

**Packaging**
- 310 ml cartridges (12/carton)
- Colour: White

Want more information?
visit our website
www.illbruck.com
SP030 is a transparent, fast-curing adhesive sealant based on illbruck’s SP polymer formulation. SP030 cures rapidly to provide a flexible, crystal clear seal. The transparent properties of SP030 make it ideal for use in the sealing/bonding of glass elements in a wide range of interior applications where a transparent bond is required.

**Product Benefits**
- Tack free within 5 minutes
- Solvent & isocyanate free - suited for safe use in confined spaces
- Excellent adhesion to a variety of substrates

**Packaging**
310 ml cartridge (12/carton)

**Product Benefits**
- Bonds & seals virtually all materials
- Interior & exterior use - over paintable
- Solvent & isocyanate free

**Packaging**
310 ml cartridge (12/carton)

**Colours**
White, grey and black. Other colours available subject to minimum order quantity. Crystal clear version available (refer to illbruck SP030).

SF520
Flexible Wood Adhesive

A high strength, flexible, single component advanced polymer adhesive for surface bonding most wood flooring.

**Product Benefits**
- Strong and flexible
- Permanently elastic bond
- Solvent free and moisture free
- Compatible with most under floor heating systems

**Packaging**
Available in 10 litre plastic buckets (containing 17 kg of material).

**Colours**
Buff / brown
CY300
Industrial Super Glue

CY300 is a versatile, ready to use, transparent, solvent free, medium viscosity, cyanoacrylate adhesive which develops very rapid high strength bonds when used between close-fitting surfaces.

Product Benefits
- Bonds a wide range of materials
- Cures in less than 60 seconds
- Easy-to-use, cyanoacrylate formulation

Packaging
- 20 g bottle (25/carton)
- 50 g bottle (25/carton)

Colour
- Translucent

CY340
Mitre Kit Adhesive

CY340 is a 2-part kit comprising a high viscosity cyanoacrylate adhesive and a spray-applied activator. The high viscosity adhesive has excellent gap-filling properties, whilst the activator accelerates curing speed and improves final bond strength.

Product Benefits
- Ideal for bonding mitred MDF joints
- 2-step application for an instant bond
- Ideal for MDF and wood-based products

Packaging
- Kit contains 1 x 50 g bottle and 1 x 200 ml canister (12/carton)

Colour
- Translucent

CY360
Super Glue Activator

CY360 is a cyanoacrylate activator supplied in an easy-to-use hand-held aerosol. It can be used in conjunction with any of the illbruck range of cyanoacrylate adhesives to create an instant high strength bond.

Product Benefits
- Use with illbruck CY adhesives
- Accelerates speed of curing
- Improves adhesion on difficult substrates

Packaging
- 200 ml canister (12/carton)

Colour
- Colourless
CT600
Sprayable Contact Adhesive

CT600 is a high strength contact adhesive in an easy-to-use 500 ml handheld canister. It is ideal for quick and simple bonding of many common materials, including: wood, cardboard, fibrous insulation materials, paper, plastics, canvas, cork, rubber, fabrics and foam, either to themselves or onto brickwork, concrete, stone and plaster.

Product Benefits
• Very versatile, 3-in-1 adhesive action
• Use as a grab adhesive, contact adhesive or tackifier
• Quick and easy bonding with a vast range of uses

Packaging
500 ml canister (12/carton)

Colour
Light yellow

CT468
High Performance Contact Adhesive

CT468 is a high performance contact adhesive with good heat resistance. CT468 offers excellent adhesion to nonporous surfaces. Although primarily developed for bonding laminated plastics, it is equally suitable for unplasticized or low plasticizer content PVC and ABS sheeting, aluminium, steel, rubber and asbestos cement sheeting.

Product Benefits
• Excellent adhesion to porous and non-porous substrates
• High bond strength
• Excellent water resistance

Packaging
1 litre tin (12/carton)

Colour
Reddish brown

CT456
Sprayable Contact Adhesive

CT456 is a spray-applied contact adhesive ideal for laminating and postforming of plastic laminates. The adhesive has good temperature resistance, instant grab and high ultimate bond strength, so is suitable for even tight radii postforming. It is also used for bonding a wide range of materials, such as metals, expanded foams, plywood, OSB, particleboard, hardboard and plasterboard.

Product Benefits
• Very high initial grab and ultimate bond strength
• Improved atomisation allows immediate lay up, eliminates blooming and reduces odour
• Sprayable formulation allows high coverage rates and rapid application

Packaging
25 litre drum

Colours
Available in red or natural

CT704
Industrial Contact Adhesive

CT704 is a very versatile multi-purpose contact adhesive, used in a wide variety of construction and industrial applications. It is simple to apply and dries to form a high strength bond with many materials, such as laminated plastic, decorative hardboard, plywood, metals and rubber.

Product Benefits
• Quick and easy to use
• Forms a high strength bond
• Excellent weather resistance

Packaging
5 litre tin

Colour
Light yellow
WD120 is a premium PVA adhesive suitable for internal and external applications where resistance to water is required.

**Product Benefits**
- Weatherproof - meets EN 204 (D3)
- Cures to a transparent finish
- Quick, easy and clean to use

**Packaging**
- 1 kg bottle (12/carton)
- 5 kg bottle (4/carton)
- 25 kg drums

**Colour**
White liquid, dries translucent
Sealants

• Innovative
• High levels of performance
• Excellent movement accommodation

GS123
Sanitary Silicone

GS123 is a sanitary grade, acetoxy silicone sealant with excellent resistance to mould and mildew. Can be used in bathrooms, kitchens and similar applications. Gives good working time.

Product Benefits
• Excellent for sealing areas with high levels of moisture
• Can be sealed around all shower and bath types
• Meets the requirements of EN ISO 11600 S 25HM

• Superior mould resistance
• Excellent tooling properties

Packaging
310 ml cartridges (20/carton)

Colours
Translucent, white, black, brown, grey and light oak

GS360
Multi-Purpose Silicone

GS360 is a high performance construction silicone with excellent adhesion, long-term flexibility and weatherproof performance. It is suitable for a wide range of sealing applications, such as: plumbing, electrical, general building and maintenance.

Product Benefits
• Bonds to many common construction materials
• Rapid curing and permanently flexible
• Excellent external weathering properties

• Superior mould resistance
• Excellent tooling properties

Packaging
310 ml cartridges (20/carton)

Colours
Translucent and white
FS500
Frame & Façade Silicone

FS500 is a low modulus, neutral curing, silicone sealant with high movement capability. It has excellent adhesion to most porous and non-porous substrates including polycarbonate.

Product Benefits
- Meets the requirements of EN ISO 11600 G&F 25LM
- Movement capability: up to 50%
- Long-term resistance to weathering, ageing and UV
- Ideal for the solid bedding glazing method for timber windows

Packaging
310 ml cartridge (20/carton)
600 ml sausage (20/carton)

Colours
Black, white. Anthracite (310 ml only). Other colours on request — subject to availability and minimum order quantity.

FS125
Premium Frame & Façade Silicone

FS125 is a one-part, neutral curing, low modulus, low odour silicone sealant suitable for perimeter joint sealing applications with high movement capability. It has excellent primerless adhesion to multiple surfaces including masonry, brick, aluminium, PVC-U, polycarbonate, polyacrylate, wood, painted wood, glass and glazed surfaces.

Product Benefits
- Meets the requirements of EN ISO 11600 G&F 25LM
- Movement capability: up to 50%
- Long-term resistance to weathering, ageing and extra UV protection
- Low modulus formulation ensures minimum stress at joint faces
- Neutral cure: low odour and non-corrosive
- Modern colour range in low sheen finish
- Easy to tool into place and smooth off

Packaging
310 ml cartridges (20/carton)

Colours
- 340 Signal Black
- 409 White Ibiza
- 065 Bronze
- 068 Brown
- 176 Grey Stone
- 160 Grey
- 365 Stone
- 170 Grey Anthracite
- 016 Anthracite
- 447 Chartwell Green

FA870 is a non-staining, neutral curing silicone sealant. It provides long term elastic sealing of connection and movement joints between natural stones such as granite, slate, terrazzo, porphyry, limestone, travertine, sandstone, quartzite, marble, etc. as well as for connection joints with other conventional materials like concrete, ceramics, metals, glass, PVC and primed wood.

**Product Benefits**

- A high performance silicone sealant developed specifically for the sealing of natural stone whereby illbruck guarantees no migratory staining
- Long-term resistance to weathering, ageing and UV
- Contains fungicide to prevent mould growth
- Chemically neutral, non-corrosive and very low odour
- Rapid curing formulation - skins within 10 - 20 minutes

**Packaging**

- 310 ml cartridges (20/carton)
- 600 ml sausages (20/carton)

SP540 Floor Joint Sealant

SP540 Floor Joint Sealant is abrasion and vibration resistant, non-yellowing, easy to tool, and both UV and weather resistant.

Product Benefits
- Isocyanate & silicone free
- Fast curing
- Fast tack-free time
- Permanent elasticity
- High mechanical strength and good abrasion resistance
- Excellent resistance to weathering, ageing and UV exposure

Packaging
- 310 ml cartridge (12/carton)
- 600 ml sausages (20/carton)

Colours
- Concrete grey and black

LD410 Duct Sealant

LD410 is a solvent free duct sealant which gives a flexible seal in low movement joints. It has been designed for permanent sealing in low, medium and high pressure ductwork.

Product Benefits
- Prevents air leakage in low, medium and high pressure ductwork
- Can be used to meet requirements of Class C to HVCA standard DW 144
- Water based; especially suited for safe use in confined spaces

Packaging
- 310 ml cartridge (25/carton)

Colour
- Grey

OS120 Duct Sealant

OS120 is a rapid curing duct sealant which gives a flexible seal in low movement joints. It has been designed for permanent sealing in low, medium and high pressure ductwork.

Product Benefits
- Prevents air leakage in low, medium and high pressure ductwork
- Can be used to meet requirements of Class C to HVCA standard DW 144
- Rapid curing - allows fast track sealing of ductwork

Packaging
- 380 ml cartridge (12/carton)

Colour
- Grey
**FS702**

**Nullifire Fire-Rated Acrylic Sealant**

Nullifire FS702 cures to give a firm but flexible fire seal whilst providing an excellent acoustic and air seal. It is ideally suited for use around small annular service penetration seals in walls and floors.

**Product Benefits**
- Can achieve up to 4 hours joint fire resistance tested in accordance with EN 1366-4 and ETAG 026
- Ideal for sealing low movement joints - suitable for gaps up to 50 mm wide
- Suitable for rigid and flexible walls
- Used for sealing FB750 Coated Batts
- Acoustics up to 61 dB
- Air seal up to 2,000 Pa
- Single sided seal tested
- Easily paintable

**Packaging**
- 310 ml cartridge (12/carton)
- 600 ml sausage (12/carton)

**Colour**
White and grey

---

**FS703**

**Nullifire Fire Resistant Silicone Sealant**

Nullifire FS703 provides a fire resistant seal for high movement joints. For internal use in: joints in compartment walls and floors, seals in and around lightweight partitioning, gaps between frames and structures, bedding of fire door locks and hinges, around pipes and services, and at junctions of different materials.

**Product Benefits**
- Can achieve up to 5 hours joint fire resistance tested in accordance with EN 1366-4
- Suitable for gaps up to 50 mm wide
- Excellent unprimed adhesion
- Slump free with a long service life
- Seal ratio at 2:1 (e.g. 10 mm width x 5 mm depth)

**Packaging**
- 310 ml cartridge (12/carton)
- 600 ml sausage (12/carton)

**Colours**
White and grey

---

**FS709**

**Nullifire Graphite-Based Intumescent Sealant**

Nullifire FS709 is a single part, graphite based, fire resistant intumescent sealant. It is designed to close off gaps and penetrations in compartment walls and floors, to provide up to 4 hours fire resistance. This product has been formulated to close off plastic pipe penetrations in the event of a fire, negating the need for pipe closers or wrap systems.

**Product Benefits**
- Certified to the latest European standards EN 1366-3 and EN1366-4, Classified to EN 13501-2:2007
- Up to 240 minutes fire resistance
- A+ internal air quality rating
- Can be used in FB750 Batt
- Tested with combustible pipes up to 125 mm
- Tested for use in linear gaps up to 25 mm
- Tested with metallic pipes, cables, cable bunches, cable trays and cable ladders

**Packaging**
- 310 ml cartridge (12/carton)

**Colour**
Grey
TN119
Flange Sealing Foam Tape

TN119 is a closed-cell, single sided PE foam tape used to provide an airtight seal around flange joints in HVAC ductwork.

Product Benefits
• A quick and easy way to achieve an airtight seal at ductwork connections, ideal for confined areas
• 100% closed-cell PE foam provides an airtight seal even under minimal levels of compression
• Meets the requirements of Building and Engineering Services Association DW 144 Class C

Standard Sizes
Thickness: 6 mm
Widths: 15 & 25 mm

Colour
Grey

TN032
Foil Tape

A bright finish aluminium foil with an acrylic adhesive and paper liner. Gives a neat, attractive finish and provides protection and moisture vapour sealing on foil faced insulation materials, pipe insulation sections and metal ducting.

Product Benefits
• Easy sealing over foil faced insulation
• Improves airtightness
• Attractive finish

Standard Sizes
Widths: 50, 75 & 100 mm

Colour
Silver

Specialist Foam Tapes

• Designed for use in specialist applications
Accessories

• Cleaners
• Primers
• Guns
• Tools & Accessories

AA290
PU Solvent Cleaner

Dual-purpose aerosol solvent based cleaner used to purge applicator guns and clean nozzles after PU foam applications. The spray nozzle adaptor can also be used to remove uncured PU foam from surfaces not affected by solvent.

Product Benefits
• High power cleaner for illbruck PU foams
• Fills most PU foam guns
• Dual-purpose cleaner/aerosol

Packaging
500 ml (12/carton)

Colours
Clear

AW403
Industrial Glass Cleaner

Fast evaporating solvent solution removes dirt from glass surfaces to leave a sparkling finish. Effectively cleans all types of glass, mirrors and tiles.

Product Benefits
• Powerful industrial cleaner for glass, mirrors and tiles
• Cleans to leave a sparkling crystal clear finish
• Suitable for windows, mirrors, tiles and certain metals

Packaging
1 litre (12/carton)
25 litre poly bottle

Colours
Colourless
**AW430**
PVCu Frame Cleaner

Effective solvent cleaner ideally suited for cleaning and removing stains and contamination from PVCu window and door frames during installation and for maintenance thereafter. It may also be used for cleaning other surfaces which are not sensitive to solvents such as metal, ceramics and glass.

**Packaging**
1 litre (12/carton)

**Colours**
Clear

---

**AA292**
Cleaning Wipes

AA292 is designed to clean wet and semi-cured paint, sealant, adhesives, bitumen, polyurethanes, expanding foams, polyester fillers and epoxies from hands, tools and surfaces.

**Packaging**
100 per tub (6 tubs per carton)

---

**AW421**
TREMCO Industrial Cleaner

TREMCO AW421 is a powerful solvent-based cleaning solution for dissolving and removing mastics, adhesives and sealants. It will remove many common adhesives and sealants, particularly in the uncured state. The product may also be used for cleaning and to degrease other surfaces that are not sensitive to solvents such as metal, ceramics and glass.

The product can also be used to dilute illbruck CT113 Contact Adhesive, in order to achieve a consistency suitable for use as a surface primer.

**Packaging**
5 litre screw top can

**Colour**
Clear

---

**AT115**
Cleaner for Plastics

AT115 is ideal for cleaning and degreasing sensitive surfaces such as plastics, painted and powder-coated components as well as metals. Can also be used for cleaning tools and equipment.

**Benefits**
- Rapid drying and easy to use
- Ideal for cleaning sensitive substrates prior to the application of illbruck sealants

**Packaging**
1 litre tin (10 per box)

**Colours**
Transparent

---

**AT200**
General Purpose Cleaner for Degreasing Metals

AT200 is a blend of solvents for cleaning and degreasing joint edges and adhesive surfaces and for cleaning working tools.

**Benefits**
- Rapid drying and easy to use
- Ideal for cleaning substrates prior to the application of illbruck sealants

**Packaging**
500 ml (10/carton) 5 litre cans

**Colours**
Transparent
### Guns

**AA834**

*Cartridge Gun 400 Standard*

A high quality 10” metal skeleton gun for professional users. Able to accommodate 310 and 380 ml cartridges.

**Packaging**

Individual units

---

**AA934**

*Sausage Gun 400 Standard*

This standard sausage gun has an excellent combination of price and quality. For small and non-regular projects, it’s an ideal gun to use. Especially suitable for SP510 400 ml sausages.

**Packaging**

Individual units

---

**AA854**

*Cartridge Gun 400 Pro*

This high quality gun has an excellent combination of thrust and ratio; so, it is extremely useful when many linear metres per day need to be applied, for example with our SP525 façade sealant.

**Packaging**

Individual units

---

**AA936**

*Sausage Gun 600 Standard*

High quality barrel gun for application of 600 ml foil sausages.

**Packaging**

Individual units

---

**AA874**

*Cartridge Gun 400 Ultra*

This extremely strong quality gun has an excellent thrust so it is extremely useful when you have to deal with highly viscous adhesives, for example with our SP350 high tack adhesive. Suitable for use with 310 - 400 ml cartridges.

**Packaging**

Individual units

---

**AA956**

*Sausage Gun 600 Pro Combi*

This high quality gun has an excellent combination of thrust and ratio; so, it is extremely useful when many linear metres per day need to be applied, for example with our SP525 façade sealant. Suitable for use with 310 - 400 ml cartridges and 400 - 600 ml sausages.

**Packaging**

Individual units
This high quality gun has been specially designed for the professional end-user. It is an ideal hybrid design with metal and thermoplastic material parts which is solvent and stick proof.

**Packaging**
Individual units

This high quality gun has been specially designed for the professional end-user. It is an ideal hybrid design with metal and thermoplastic material parts which is solvent and stick proof.

**Packaging**
Individual units

This ultra-high quality gun has been specially designed for the professional end-user. The hybrid design is solvent and stick proof. A PTFE coating on metal parts makes cleaning and maintenance easier.

**Packaging**
Individual units

This high quality gun has been specially designed for the professional end-user. It is an ideal hybrid design with metal and thermoplastic material parts which is solvent and stick proof. The extra long barrel aids facilitates application in some difficult areas.

**Packaging**
Individual units

The 2 in 1 application system for illbruck expanding foams is suitable for all types of applications. It provides more precise application and greater efficiency than a standard nozzle and therefore less waste.

**Packaging**
6 nozzles per pack

For our complete range of guns, please refer to the illbruck Application Gun Range Brochure.
Tools & Accessories

AA301
Smoothing Agent

AA301 helps achieve a better finish on the sealant when tooling off. Just spray on the freshly gunned silicone and smooth off the sealant in the normal way with the smoothing tool. Far better than washing up liquid or common alternatives!

Packaging
750 ml spray bottle (12/carton)

AA311
Jointing Tools

AA311 is a tooling kit contained in a small box. Available in round or angular profiles, each box having 3 tools. They are made of high quality plastic to give an excellent finish.

Packaging
Round Profiles: 3 per box (6 different profiles 4 - 14 mm)
Angular Profiles: 3 per box (6 different profiles 3 - 10 mm)

AA400
Anti-Mould Spray

AA400 can be sprayed onto mould to remove it, and will also prevent further mould from forming for a significant amount of time. If mould persists, please contact tremco illbruck technical department.

Packaging
500 ml spray bottle (12/carton)

PR102
PE Joint Backer Rod

PR102 is used as a foam backing rod behind the sealant joint, for exterior and interior use. When positioned correctly it ensures correct joint dimensions. PR102 avoids 3-sided adhesion, allowing the joint to move more efficiently.

Packaging
Available in a range of sizes from 6 to 50 mm.
**AA291**

**Multi-Purpose Lubricant Spray**

Want more information? visit our website
www.illbruck.com

AA291 Lubricant Spray is an aerosol applied Teflon based CFC, HFC and HCFC free non-staining lubricant for use on metal and plastic moving parts. It produces a dry, low friction, non-stick protective coating that is hard wearing and long lasting. AA291 is ideal for the maintenance of PU Foam guns.

**Packaging**

Individual units

---

**AB004**

**Membrane Seam Rollers**

The most efficient way of getting maximum contact when applying illbruck membranes. This handy roller allows a professional finish eliminating air bubbles and wrinkles and allowing the product to be applied “right first time”.

**Packaging**

Individual units

---

**AB005**

**Membrane Shears**

Get a perfect cut everytime on illbruck membranes. Designed to cut cleanly and efficiently with a lock to keep the shears closed when not in use. The perfect tool for the professional.

**Packaging**

Individual units

---

**AB006**

**Tape Belts**

Designed specifically to keep part rolls of illbruck tapes (e.g. TP650) from expanding.

**Packaging**

2 pc set

---

**AB007**

**Tape Roll Clips**

Designed to clip onto the end of cut impregnated foam expanding tape (e.g. TP600 and TP652) to stop further expansion and avoid wastage. Keeps the roll tidy and neat and ready for use next time.

**Packaging**

Individual units
## CE Marking

CE Marking on a product is a manufacturer’s declaration that the product is assessed before being placed on the market and thus satisfies the legislative requirements (e.g. a harmonised level of safety) to be sold there. It means that the manufacturer has verified that the product complies with all relevant essential requirements (e.g. safety, health, environmental protection requirements) of the applicable directive(s).

## BBA

The BBA is the UK’s major authority offering approval and certification services to manufacturers and installers supplying the construction industry.

BBA Approval is recognised by building control, government departments, architects, local authorities, specifiers, and industry insurers like the NHBC.

## BSI

tremco illbruck Limited - A company certified to: ISO 9001, ISO 14001 and ISO 18001.

## Memberships

![Memberships Logos]
tremco illbruck and its strong brands

tremco illbruck is a European manufacturer and service provider of high-performance sealing, bonding, flooring, waterproofing and passive fire protection products for the construction and manufacturing industries. We ensure that your processes become faster, smarter and more efficient.

illbruck adds perfection to all your sealing and bonding projects, be it windows, façades, interiors or exteriors, a major construction scheme or a minor refurbishment job. We offer the right set of products, services and expertise to lessen your workload and improve the overall environment within buildings - making it perfect.

Nullifire helps reduce the complexities of passive fire protection. Fire safety regulations can be complicated and potentially involve the threat of liability. To cope with these challenges we deliver a focused range of rigorously tested products that cover a wide array of passive fire protection applications. Nullifire’s expert advice, support and training make for smart and simple solutions in passive fire protection.

TREMCO delivers lasting results when it comes to flooring, waterproofing, insulating glass or structural glazing. The building envelope is faced with ever more exacting requirements – technologically, legally and in terms of sustainability. With more than 85 years of experience, TREMCO offers products that have been tested for decades and under extreme environmental conditions – for buildings that are made to last.
