SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

- Trade name: illbruck FA101
- MSDS code: A-I-FA101

1.2 Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

1.3 Details of the supplier of the safety data sheet

- Manufacturer/Supplier:
  tremco illbruck Productie B.V.
  Vlietskade 1032, 4241 WC Arkel
  T: +31 (0) 183568000, F: +31 (0) 183568100
  msds@tremco-illbruck.com

- Further information obtainable from:
  tremco illbruck Ltd
  Coupland Road, Hindley Green, Wigan, WN2 4HT
  T: +44 (0) 1942251400, F: +44 (0) 1942251410
  www.tremco-illbruck.co.uk, uk.info@tremco-illbruck.com

1.4 Emergency telephone number:

During office hours tel.: +44 (0) 1942251400. At all other times it is recommended to call NHS 111 (England/Wales/Scotland), 01 809 2166 (ROI), or otherwise to contact a doctor.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008
The product is not classified, according to the CLP regulation.

2.2 Label elements

- Labelling according to Regulation (EC) No 1272/2008 Void
- Hazard pictograms Void
- Signal word Void
- Hazard statements Void

Supplemental information:
- EUH208 Contains N-(3-(trimethoxysilyl)propyl)ethylenediamine. May produce an allergic reaction.
- EUH210 Safety data sheet available on request.

2.3 Other hazards

- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.

(Contd. on page 2)
SECTION 3: Composition/information on ingredients

- 3.2 Mixtures
- Description: Polydimethylsiloxane with inorganic fillers and alkoxy silane as curing agent

- SVHC -
- Additional information:
  For the wording of the listed hazard phrases refer to section 16.
  While curing the following substances are formed and released by a reaction with atmospheric humidity:
  Methanol (CAS 67-56-1)

SECTION 4: First aid measures

- 4.1 Description of first aid measures
- General information:
  Take affected persons out into the fresh air.
  No special measures required.
  Take affected persons out of danger area and lay down.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:
  Remove from the skin using a cloth or paper. Then clean with water and soap.
  Immediately wash with water and soap and rinse thoroughly.
  If skin irritation continues, consult a doctor.
- After eye contact:
  Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing:
  Rinse out mouth and then drink plenty of water.
- 4.2 Most important symptoms and effects, both acute and delayed
  No further relevant information available.
- Information for doctor: No further relevant information available.
- Hazards: No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed
  No further relevant information available.

SECTION 5: Firefighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture
  Formation of toxic gases is possible during heating or in case of fire.

(Contd. on page 3)
SECTION 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Not required.
- 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- 6.3 Methods and material for containment and cleaning up:
  Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- 6.4 Reference to other sections
  By a reaction with atmospheric humidity by-products are released. See chapter 8.
  See Section 7 for information on safe handling.
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

SECTION 7: Handling and storage

- 7.1 Precautions for safe handling No special measures required.
- Information about fire - and explosion protection:
  The usual precautionary measures are to be adhered to when handling chemicals.
- 7.2 Conditions for safe storage, including any incompatibilities
- Storage:
  Requirements to be met by storerooms and receptacles: No special requirements.
  Information about storage in one common storage facility: Not required.
  Further information about storage conditions: None.
- 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- Additional information about design of technical facilities: No further data; see item 7.
- 8.1 Control parameters
- Ingredients with limit values that require monitoring at the workplace:
  The product does not contain any relevant quantities of materials with critical values that have to be
  monitored at the workplace.

- Additional Occupational Exposure Limit Values for possible hazards during processing:

<table>

</tr>
</thead>
<tbody>
<tr>
<td>WEL</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td>Sk</td>
</tr>
</tbody>
</table>

- Additional information: The lists valid during the making were used as basis.
8.2 Exposure controls

- Personal protective equipment:
- General protective and hygienic measures:
  Do not eat, drink, smoke or sniff while working.
  The usual precautionary measures are to be adhered to when handling chemicals.

- Respiratory protection:
  Not necessary if room is well-ventilated.
  Filter AX
  Use suitable respiratory protective device in case of insufficient ventilation.
  For further guidance,
  please refer to HSE HSG53 "Respiratory Protective Equipment at work - A Practical Guide".

- Protection of hands:
  The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
  Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.
  Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

- Material of gloves
  Butyl rubber, BR
  Nitrile rubber, NBR
  The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- Penetration time of glove material
  The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- Eye protection: Goggles recommended during refilling

- Body protection:
  Protective work clothing

SECTION 9: Physical and chemical properties

- 9.1 Information on basic physical and chemical properties
- General Information
- Appearance:
  - Form: Pasty
  - Colour: According to product specification
  - Odour: Alcohol-like
  - Odour threshold: Not determined.
  - pH-value: Not determined.
Trade name: illbruck FA101

| · Melting point/freezing point:   | Undetermined. |
| · Initial boiling point and boiling range: | Not applicable. |
| · Flash point:                   | >150 °C |
| · Flammability (solid, gas):     | Not applicable. |
| · Ignition temperature:         | 430 °C |
| · Decomposition temperature:    | Not determined. |
| · Auto-ignition temperature:    | Product is not selfigniting. |
| · Explosive properties:         | Product does not present an explosion hazard. |
| · Explosion limits:             | Not determined. |
|   · Lower:                       | Not determined. |
|   · Upper:                       | Not determined. |
| · Vapour pressure at 20 °C:     | 0.1 hPa |
| · Density at 20 °C:             | 1.02 g/cm³ |
| · Relative density              | Not determined. |
| · Vapour density                | Not determined. |
| · Evaporation rate               | Not determined. |
| · Solubility in / Miscibility with water: | Immiscible / difficult to mix. |
| · Partition coefficient: n-octanol/water: | Not determined. |
| · Viscosity:                    | Not determined. |
|   · Kinematic:                  | Not determined. |
| · Solvent content:              | 0.2 % |
|   · Organic solvents:           | VOC (EU) |
|   · VOC (EC)                    | 2.2 g/l |
|   · 9.2 Other information       | 0.22 % |

SECTION 10: Stability and reactivity

· 10.1 Reactivity Stable
· 10.2 Chemical stability
· Thermal decomposition / conditions to be avoided:
  No decomposition if used according to specifications.
· 10.3 Possibility of hazardous reactions No dangerous reactions known.
· 10.4 Conditions to avoid No further relevant information available.
· 10.5 Incompatible materials: No further relevant information available.
· **10.6 Hazardous decomposition products:**  
None if stored according to specifications.  
Beginning at approx. 150 °C small amounts of formaldehyde are formed by an oxidative decomposition.

**SECTION 11: Toxicological information**

· **11.1 Information on toxicological effects**  
**Acute toxicity** Based on available data, the classification criteria are not met.

<table>

· **Primary irritant effect:**
  · **Skin corrosion/irritation** Based on available data, the classification criteria are not met.  
  · **Serious eye damage/irritation** Based on available data, the classification criteria are not met.  
  · **Respiratory or skin sensitisation** Based on available data, the classification criteria are not met.  
  · **CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)**
    · **Germ cell mutagenicity** Based on available data, the classification criteria are not met.  
    · **Carcinogenicity** Based on available data, the classification criteria are not met.  
    · **Reproductive toxicity** Based on available data, the classification criteria are not met.  
    · **STOT-single exposure** Based on available data, the classification criteria are not met.  
    · **STOT-repeated exposure** Based on available data, the classification criteria are not met.  
  · **Aspiration hazard** Based on available data, the classification criteria are not met.  

**SECTION 12: Ecological information**

· **12.1 Toxicity**
  · **Aquatic toxicity:** No further relevant information available.  
· **12.2 Persistence and degradability** No further relevant information available.  
· **Other information:** The product is not biodegradable.  
· **12.3 Bioaccumulative potential** No further relevant information available.  
· **12.4 Mobility in soil** No further relevant information available.  
· **12.5 Results of PBT and vPvB assessment**
  · **PBT:** Not applicable.  
  · **vPvB:** Not applicable.  
· **12.6 Other adverse effects** No further relevant information available.

**SECTION 13: Disposal considerations**

· **13.1 Waste treatment methods**
  · **Recommendation**  
Uncured product may not be disposed of together with household waste and may not reach sewage system. To dispose of, open product containers and let them stand in open air until the reaction is finished totally (means there is no more smell). After that, waste can be disposed of as the cured product. Smaller quantities can be disposed of with household waste.

**SECTION 14: Transport information**

- 14.1 UN-Number
  
  ADR, ADN, IMDG, IATA

- 14.2 UN proper shipping name
  
  ADR
  
  ADN, IMDG, IATA

- 14.3 Transport hazard class(es)
  
  ADR, ADN, IMDG, IATA
  
  Class  

- 14.4 Packing group
  
  ADR, IMDG, IATA

- 14.5 Environmental hazards:
  
  Marine pollutant:

- 14.6 Special precautions for user

- 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

- UN "Model Regulation": Void

**SECTION 15: Regulatory information**

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
  
  HSE EH40/2005 Workplace Exposure Limits (as amended)
  2001/118/EC as regards the list of wastes
  2008/98/EC on waste

(Contd. on page 8)
· National regulations:
· Additional classification according to Decree on Hazardous Materials, Annex II: No further relevant information available.
· Information about limitation of use: No further relevant information available.
· Other regulations, limitations and prohibitive regulations
· Substances of very high concern (SVHC) according to REACH, Article 57 Not applicable.
· 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information
This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· Relevant phrases
H226 Flammable liquid and vapour.
H332 Harmful if inhaled.

· Department issuing SDS:
Prepared and verified in accordance with "REACH" Regulation (EC) No 1907/2006, Annex II, Part A, 0.2.3.

· Abbreviations and acronyms:
ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
IMDG: International Maritime Code for Dangerous Goods
IATA: International Air Transport Association
GHS: Globally Harmonised System of Classification and Labelling of Chemicals
EINECS: European Inventory of Existing Commercial Chemical Substances
ELINCS: European List of Notified Chemical Substances
CAS: Chemical Abstracts Service (division of the American Chemical Society)
VOC: Volatile Organic Compounds (USA, EU)
LC50: Lethal concentration, 50 percent
LD50: Lethal dose, 50 percent
PBT: Persistent, Bioaccumulative and Toxic
SVHC: Substances of Very High Concern
vPvB: very Persistent and very Bioaccumulative
Flam. Liq. 3: Flammable liquids – Category 3
Acute Tox. 4: Acute toxicity – Category 4

· * Data compared to the previous version altered.
